Summary of Discussion

Unit Managers Meeting: 2727-S NRDWSF
December 10, 1991

The meeting opened at 12:30 pm with a discussion of status of Revision 3 of the Closure Plan. WHC (T. Wilczek) stated that the closure plan is under review by DOE. He expects the closure plan will be ready to deliver to Ecology by mid-January 1992.

The next topic of discussion concerned the status of facility sampling. WHC indicated that it is tentatively scheduled for spring/summer 1992. WHC and Ecology concurred that Ecology must approve the sampling plan. Ecology requested that DOE determine the requirements necessary for them to be able to take split samples.

Ecology stated that the closure plan for this facility is planned to be included in the site-wide (Part B) permit. Issuance of the site-wide Part B for public comment will signify Ecology concurrence with the document. The closure plan for 2727-S would not be incorporated into the site-wide Part B until November 1992, and therefore could not be approved until after the public review period in the 1993 fiscal year. Ecology agreed to issue a letter of acceptance to DOE/WHC for the closure plan. Ecology mentioned that DOE may comment on this strategy for closure plan approval during the public review period.

IF ENERGY WANTS TO PROCEED WITH
CLOSURE ACTIVITIES PRIOR TO FORMAL
APPROVAL OF THE PLAN.
